

Assignment-5

Know where you are and where you working

*Here we use **pwd**, **cd** and **ls** as combine task to understand where you working on terminal and how you can switch from one directory to another one.*

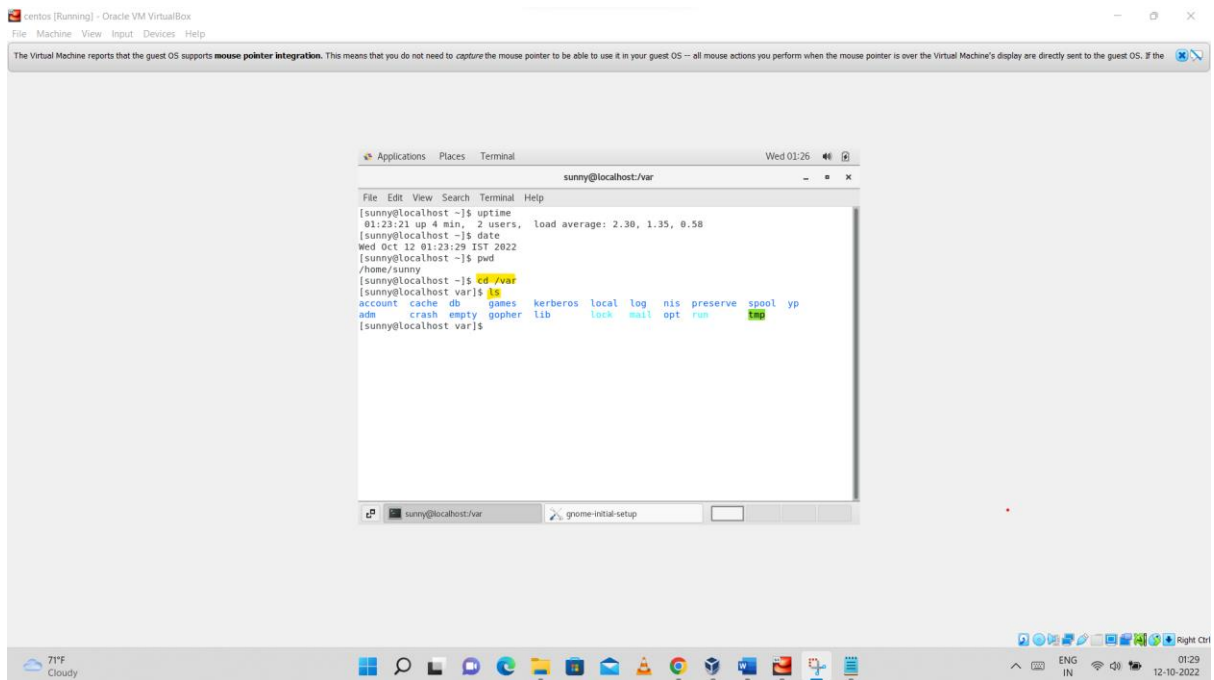

- Open terminal after restart the linux
 - Check which location you working, type **pwd** and take screenshot

Ans-

- Now use **cd /var** and hit **Enter** key
 - Do **ls**, and see what output comes, give screenshot?

Ans-

- Do explore other help options of each command to learn more other things we can do with these commands

Ans – used `ls ..` which lists parent directory
